JAMIA HAMDARD — ADMISSION DATASET

Instruction:

How to apply online in Jamia Hamdard?

Response:
Visit the official Jamia Hamdard admission portal. Register using a valid email ID and mobile number. Log in and complete the online application form by entering personal, academic, and contact details. Upload required documents such as mark sheets and photographs. Pay the application fee through the online payment gateway and submit the form. After submission, download and save the confirmation page for future reference.

Instruction:

What is the application start date?

Response:
The online application process for Jamia Hamdard generally begins between **March and April each year**. The exact date may vary depending on the course and academic session. Applicants should regularly check the official website for updates.

Instruction:

What is the application last date?

Response:
The application deadline typically falls between **May and June**. The exact last date varies by program. Some courses may have extended deadlines if seats remain available.

Instruction:

Can I apply after the deadline?

Response:
Applications are usually not accepted after the official deadline. However, if seats remain vacant, the university may reopen the application portal or conduct **spot admissions**.

Instruction:

Is entrance exam required?

Response:
Yes, for some programs entrance examinations are required, while other courses offer admission based on **merit in qualifying examinations** such as Class 12 or graduation marks.

Instruction:

Is CUET accepted?

Response:
Yes, Jamia Hamdard accepts **CUET scores** for admission to several undergraduate and postgraduate programs. Candidates must appear for CUET and select Jamia Hamdard during the application process.

Instruction:

Is JEE accepted?

Response:
Yes, **JEE Main scores** are accepted for admission to **B.Tech programs** at Jamia Hamdard.

Instruction:

Is NEET required for medical courses?

Response:
Yes, **NEET qualification is mandatory** for admission to medical programs such as **MBBS and BDS** as per the regulations of the National Medical Commission.

Instruction:

Is direct admission available?

Response:
Direct admission may be available for certain **merit-based programs** depending on eligibility criteria and seat availability.

Instruction:

How is the merit list prepared?

Response:
The merit list is prepared based on either **entrance exam scores (such as CUET, JEE, or NEET)** or **marks obtained in the qualifying examination**, depending on the course requirements.

Instruction:

What is the counselling process?

Response:
Shortlisted candidates are invited for counselling. During counselling, candidates must present their original documents for verification. Seats are allotted based on **merit rank, eligibility, and seat availability**.

Instruction:

Is spot admission possible?

Response:
Yes, Jamia Hamdard may conduct **spot admission rounds** if seats remain vacant after regular counselling rounds.

Instruction:

What documents are required?

Response:
The following documents are usually required during admission:

- Class 10 mark sheet and certificate
- Class 12 mark sheet and certificate
- Transfer certificate
- Migration certificate (if applicable)
- Character certificate
- Valid government ID proof
- Passport-size photographs
- Entrance exam scorecard (if applicable)
- Category certificate (if applicable)

Instruction:

Is migration certificate required?

Response:
Yes, a **migration certificate** is required for students who completed their previous education from a different board or university.

Instruction:

Is character certificate needed?

Response:
Yes, a **character certificate** issued by the last attended institution is required at the time of admission.

Instruction:

Is gap year allowed?

Response:
Yes, students with a **gap year** can apply. However, they may be required to submit an **affidavit or declaration explaining the reason for the gap period**.

Instruction:

Is there any age limit?

Response:
Age limits apply mainly to **medical and certain professional courses**, according to guidelines issued by regulatory authorities such as the National Medical Commission.

Instruction:

Is application correction allowed?

Response:
Yes, the university may provide a **correction window** after the application submission period, allowing candidates to modify limited details in the form.

Instruction:

Can I apply for multiple courses?

Response:
Yes, applicants can apply for multiple courses, but they must **submit separate application forms and pay the required application fee for each course**.

Instruction:

What is the application fee amount?

Response:
The application fee generally ranges between **₹700 and ₹1500**, depending on the course applied for.

Instruction:

Is the fee refunded if not selected?

Response:
No, the **application fee is non-refundable**, regardless of admission outcome.

Instruction:

Can international students apply?

Response:
Yes, international students can apply through the **Foreign Students Admission Cell (FSAC)** of Jamia Hamdard.

Instruction:

What is the reservation policy?

Response:
Reservation is provided according to **university and government guidelines**, including provisions for **Muslim minority candidates, EWS, and other eligible categories**.

Instruction:

What are minority quota details?

Response:
Jamia Hamdard is a **Muslim minority institution** and reserves a percentage of seats for **Muslim minority candidates** as per institutional rules.

Instruction:

What is the EWS quota process?

Response:
Candidates applying under the **Economically Weaker Section (EWS)** category must submit a **valid EWS certificate issued by a competent authority** during admission.

Instruction:

When do classes start?

Response:
Academic sessions usually begin between **August and September** after completion of the admission process.

Instruction:

What are the admission confirmation steps?

Response:
To confirm admission, candidates must:

1. Accept the allotted seat
2. Pay the admission fee
3. Submit required documents
4. Complete document verification
5. Receive their enrollment number

Instruction:

Is there a late admission penalty?

Response:
Yes, a **late fee penalty** may be charged if the admission process is completed after the specified deadline.

Instruction:

Is seat upgrade possible?

Response:
Yes, **seat upgradation** may be allowed during counselling rounds based on **merit rank and seat availability**.

Instruction:

How to cancel admission?

Response:
To cancel admission, the candidate must submit a **written cancellation request to the admission office**. Refunds, if applicable, will be processed according to the **university refund policy**.

JAMIA HAMDARD – ALL SCHOOLS AND ACADEMIC DETAILS

Instruction:

How many schools are there in Jamia Hamdard?

Response:
Jamia Hamdard has **9 major Schools of Study and 1 major institute (medical institute)** that offer undergraduate, postgraduate, and doctoral programs across engineering, pharmacy, health sciences, management, humanities, and law.

Instruction:

What are the schools in Jamia Hamdard?

Response:
The main schools and institute in Jamia Hamdard are:

1. **School of Engineering Sciences & Technology (SEST)**
2. **School of Pharmaceutical Education & Research (SPER)**
3. **School of Chemical & Life Sciences (SCLS)**
4. **School of Interdisciplinary Sciences & Technology (SIST)**
5. **School of Management & Business Studies (SMBS)**
6. **School of Humanities & Social Sciences (SHSS)**
7. **School of Nursing Sciences & Allied Health**
8. **School of Unani Medical Education & Research (SUMER)**
9. **Hamdard Institute of Legal Studies & Research (HILSR)**
10. **Hamdard Institute of Medical Sciences & Research (HIMSR)** – the medical college associated with the university.

Instruction:

How many courses are offered in Jamia Hamdard?

Response:
Jamia Hamdard offers **more than 120 undergraduate, postgraduate, diploma, and doctoral programs** across its schools of study.

Instruction:

What types of courses are offered at Jamia Hamdard?

Response:
The university offers various types of programs including:

- Undergraduate programs (B.Tech, B.Pharm, B.Sc, BBA, BA, BUMS, MBBS, BA LLB, B.Sc Nursing)
- Postgraduate programs (M.Tech, M.Pharm, MBA, M.Sc, MA, MD, MS)
- Diploma programs
- Doctoral programs (PhD in different disciplines)

Instruction:

How many undergraduate courses are available in Jamia Hamdard?

Response:
Jamia Hamdard offers **around 40+ undergraduate programs** across engineering, pharmacy, science, management, law, medicine, and healthcare fields.

Instruction:

How many postgraduate courses are available in Jamia Hamdard?

Response:
The university offers **more than 50 postgraduate programs**, including M.Tech, M.Pharm, MBA, M.Sc, MA, MD, and MS programs.

Instruction:

How many doctoral programs are offered in Jamia Hamdard?

Response:
Jamia Hamdard offers **PhD programs in multiple disciplines**, including engineering, pharmacy, management, life sciences, humanities, and medical sciences.

Instruction:

Which school offers the highest number of courses in Jamia Hamdard?

Response:
The **School of Pharmaceutical Education and Research (SPER)** offers one of the largest numbers of programs, including D.Pharm, B.Pharm, Pharm.D, multiple M.Pharm specializations, and PhD programs.

Instruction:

Are interdisciplinary courses available in Jamia Hamdard?

Response:
Yes, interdisciplinary programs are offered through the **School of Interdisciplinary Sciences and Technology**, which includes programs in food technology, clinical research, and other emerging fields.

SEST – Instruction Response Dataset

Instruction:

What is the School of Engineering Sciences and Technology (SEST) at Jamia Hamdard?

Response:
The School of Engineering Sciences and Technology (SEST) is the engineering and computer science school of Jamia Hamdard. It offers undergraduate, postgraduate, and doctoral programs in fields such as computer science, artificial intelligence, electronics, and information technology. The school focuses on technical education, research, innovation, and industry collaboration.

Instruction:

What courses are offered in SEST?

Response:
SEST offers several undergraduate and postgraduate programs including:
• B.Tech Computer Science and Engineering
• B.Tech Artificial Intelligence
• B.Tech Electronics and Communication Engineering
• BCA (Bachelor of Computer Applications)
• MCA (Master of Computer Applications)
• M.Tech programs
• PhD in Engineering and Technology

Instruction:

What undergraduate courses are available in SEST?

Response:
The undergraduate programs offered in SEST include:
• B.Tech Computer Science and Engineering
• B.Tech Artificial Intelligence
• B.Tech Electronics and Communication Engineering
• BCA (Bachelor of Computer Applications)

Instruction:

What postgraduate courses are offered in SEST?

Response:
SEST offers postgraduate programs including:
• MCA (Master of Computer Applications)
• M.Tech in engineering specializations
• PhD in engineering and technology fields.

B.Tech PROGRAM INFORMATION

Instruction:

What is B.Tech in SEST?

Response:
B.Tech is a four-year undergraduate engineering program that provides knowledge in computer science, artificial intelligence, electronics, programming, networking, and modern technologies.

Instruction:

What is the duration of the B.Tech program?

Response:
The B.Tech program duration is **4 years**, divided into **8 semesters**.

Instruction:

What is the fee for B.Tech in SEST?

Response:
The total tuition fee for B.Tech programs is approximately **₹7 lakh to ₹9 lakh for the entire course**, depending on specialization and university updates.

Instruction:

What is the average package for B.Tech students?

Response:
The average placement package for B.Tech students generally ranges between **₹4 LPA and ₹6 LPA**.

Instruction:

What is the highest package for B.Tech students?

Response:
The highest package reported for engineering students has reached around **₹25 LPA to ₹31 LPA** depending on the placement year and company.

BCA PROGRAM INFORMATION

Instruction:

What is BCA in SEST?

Response:
BCA (Bachelor of Computer Applications) is a three-year undergraduate program focused on computer science, programming, software development, database systems, and information technology.

Instruction:

What is the duration of the BCA program?

Response:
The BCA program duration is **3 years**, divided into **6 semesters**.

Instruction:

What is the fee for the BCA program?

Response:
The total fee for the BCA program is approximately **₹3 lakh to ₹4 lakh for the complete course**.

Instruction:

What is the average package after BCA?

Response:
The average placement package for BCA graduates generally ranges from **₹3 LPA to ₹5 LPA** depending on skills and company.

Instruction:

What is the highest package after BCA?

Response:
The highest package for BCA graduates can reach **₹10 LPA or more**, especially when students have strong programming skills.

MCA PROGRAM INFORMATION

Instruction:

What is MCA at SEST?

Response:
MCA (Master of Computer Applications) is a postgraduate program that provides advanced knowledge in software development, programming, system design, and computer applications.

Instruction:

What is the duration of the MCA program?

Response:
The duration of the MCA program is **2 years**.

Instruction:

What is the fee for the MCA program?

Response:
The total fee for MCA is approximately **₹3.5 lakh to ₹5 lakh for the complete course**.

Instruction:

What is the average package after MCA?

Response:
The average placement package for MCA graduates ranges between **₹4 LPA and ₹7 LPA**.

Instruction:

What is the highest package for MCA students?

Response:
The highest package for MCA graduates can reach **₹15 LPA or higher**, depending on the company and technical skills.

M.Tech INFORMATION

Instruction:

What is M.Tech in SEST?

Response:
M.Tech is a postgraduate engineering program focused on advanced technical knowledge, research, and specialization in engineering fields.

Instruction:

What is the duration of the M.Tech program?

Response:
The duration of the M.Tech program is **2 years**.

Instruction:

What is the fee for M.Tech?

Response:
The total fee for M.Tech programs is approximately **₹2 lakh to ₹3 lakh** for the entire course.

INTERNSHIPS

Instruction:

Are internships available for SEST students?

Response:
Yes, internships are an important part of the engineering and computer programs. Students typically complete internships during summer breaks and final-year training.

Instruction:

Where do SEST students get internships?

Response:
Students usually intern at:
• IT companies
• Software development firms
• Technology startups
• Research laboratories
• Engineering companies

PLACEMENTS

Instruction:

Which companies recruit SEST students?

Response:
Major recruiters include:
• TCS
• Infosys
• Wipro
• Accenture
• Capgemini
• HCL

Instruction:

Does SEST have a placement cell?

Response:
Yes, Jamia Hamdard has a placement cell that supports students with internships, skill development programs, placement drives, and interview preparation.

Instruction:

What laboratories are available in SEST?

Response:
SEST provides several laboratories including:
• Computer programming labs
• Artificial intelligence labs
• Electronics and communication labs
• Networking labs
• Software development labs

Instruction:

What facilities are available for SEST students?

Response:
Facilities include computer labs, Wi-Fi campus, research labs, library resources, project laboratories, seminar halls, and innovation centers.

Instruction:

What career options are available after SEST courses?

Response:
Graduates can work in roles such as:
• Software developer
• Data analyst
• Artificial intelligence engineer
• System engineer
• Web developer
• IT consultant

Students can also pursue higher studies such as **M.Tech, MBA, or PhD**.

Instruction:

Are projects included in SEST programs?

Response:
Yes, students complete mini projects and a major final-year project where they apply their technical knowledge to real-world problems.

SPER – Instruction Response Dataset

Instruction:

What is the School of Pharmaceutical Education and Research (SPER) at Jamia Hamdard?

Response:
The School of Pharmaceutical Education and Research (SPER) is the pharmacy school of Jamia Hamdard. It offers undergraduate, postgraduate, and doctoral programs in pharmaceutical sciences, drug research, pharmacology, and biotechnology. SPER is known for its strong research environment and pharmaceutical industry collaborations.

Instruction:

What courses are offered in SPER?

Response:
SPER offers several programs in pharmaceutical sciences including:
• D.Pharm (Diploma in Pharmacy)

• B.Pharm (Bachelor of Pharmacy)
• Pharm.D (Doctor of Pharmacy)
• M.Pharm with multiple specializations
• PhD in Pharmaceutical Sciences

Instruction:

What undergraduate programs are offered in SPER?

Response:
The undergraduate programs in SPER include:
• B.Pharm (Bachelor of Pharmacy)
• Pharm.D (Doctor of Pharmacy)

Instruction:

What diploma programs are offered in SPER?

Response:
SPER offers the **D.Pharm (Diploma in Pharmacy)** program which focuses on basic pharmaceutical sciences and pharmacy practice.

Instruction:

What postgraduate programs are offered in SPER?

Response:
SPER offers postgraduate programs including **M.Pharm in several specializations** and **PhD programs in pharmaceutical sciences**.

Instruction:

What is D.Pharm?

Response:
D.Pharm (Diploma in Pharmacy) is a diploma-level course that provides basic knowledge of pharmacy, medicines, drug formulation, and pharmaceutical practices.

Instruction:

What is the duration of D.Pharm?

Response:
The duration of the D.Pharm program is **2 years**.

Instruction:

What is the fee for the D.Pharm program?

Response:
The total fee for D.Pharm is approximately **₹1.5 lakh to ₹2.5 lakh for the complete course** depending on university updates.

Instruction:

What career opportunities are available after D.Pharm?

Response:
Graduates can work as **pharmacy assistants, medical store pharmacists, hospital pharmacists**, or continue their studies in B.Pharm.

Instruction:

What is B.Pharm in SPER?

Response:
B.Pharm (Bachelor of Pharmacy) is a four-year undergraduate program that focuses on pharmaceutical sciences, drug development, pharmacology, medicinal chemistry, and pharmacy practice.

Instruction:

What is the duration of B.Pharm?

Response:
The duration of the B.Pharm program is **4 years**, divided into **8 semesters**.

Instruction:

What is the fee for B.Pharm?

Response:
The total fee for B.Pharm is approximately **₹6 lakh to ₹9 lakh for the entire course**.

Instruction:

What is the average placement package after B.Pharm?

Response:
The average placement package for B.Pharm graduates generally ranges between **₹3 LPA and ₹6 LPA**.

Instruction:

What is the highest package offered to pharmacy students?

Response:
The highest package for pharmacy graduates has reached approximately **₹20 LPA or higher** depending on placement year and company.

Instruction:

What is Pharm.D?

Response:
Pharm.D (Doctor of Pharmacy) is a professional doctoral program focused on clinical pharmacy, patient care, drug therapy, and hospital pharmacy practice.

Instruction:

What is the duration of the Pharm.D program?

Response:
The duration of the Pharm.D program is **6 years**, including **5 years of academic study and 1 year of internship or clinical training**.

Instruction:

What is the fee for Pharm.D?

Response:
The total fee for the Pharm.D program is approximately **₹9 lakh to ₹12 lakh for the complete course**.

Instruction:

Where do Pharm.D students complete internships?

Response:
Students complete internships and clinical training in hospitals, healthcare institutions, and clinical research organizations.

Instruction:

What is M.Pharm?

Response:
M.Pharm (Master of Pharmacy) is a postgraduate program that focuses on advanced pharmaceutical research, drug development, and specialized pharmacy fields.

Instruction:

What is the duration of M.Pharm?

Response:
The duration of the M.Pharm program is **2 years**.

Instruction:

What specializations are available in M.Pharm?

Response:
M.Pharm specializations include:
• Pharmaceutics
• Pharmacology

• Pharmaceutical Chemistry
• Pharmacognosy
• Pharmaceutical Biotechnology
• Quality Assurance
• Pharmaceutical Analysis

Instruction:

What is the fee for M.Pharm?

Response:
The total fee for the M.Pharm program is approximately **₹4 lakh to ₹6 lakh for the complete course**.

Instruction:

What is the average package after M.Pharm?

Response:
The average placement package for M.Pharm graduates generally ranges between **₹5 LPA and ₹8 LPA** depending on specialization and research experience.

Instruction:

Does SPER offer PhD programs?

Response:
Yes, SPER offers **PhD programs in pharmaceutical sciences** for students interested in advanced research and academic careers.

Instruction:

What is the duration of the PhD program?

Response:
The duration of the PhD program is usually **3 to 5 years**, depending on the research work and thesis completion.

Instruction:

Are internships available for SPER students?

Response:
Yes, internships and industrial training are important parts of pharmacy programs. Students gain practical experience through training in pharmaceutical companies, hospitals, and research laboratories.

Instruction:

Where do SPER students complete internships?

Response:
Students typically intern at:
• Pharmaceutical manufacturing companies
• Drug research laboratories
• Hospitals and clinical centers
• Biotechnology companies

Instruction:

Which companies recruit SPER students?

Response:
Major recruiters include:
• Sun Pharma
• Cipla
• Pfizer
• Dr. Reddy’s Laboratories
• Mankind Pharma
• Lupin

Instruction:

Does SPER provide placement support?

Response:
Yes, Jamia Hamdard has a placement cell that assists pharmacy students with training programs, internships, and recruitment opportunities.

Instruction:

What laboratories are available in SPER?

Response:
SPER has advanced laboratories including:
• Pharmaceutics laboratories
• Pharmacology laboratories
• Medicinal chemistry labs
• Biotechnology labs
• Drug analysis laboratories

Instruction:

What research facilities are available for pharmacy students?

Response:
Students have access to research laboratories, pharmaceutical instrumentation facilities, and collaborative research projects with industry and healthcare institutions.

Instruction:

What career options are available after pharmacy courses from SPER?

Response:
Graduates can work in roles such as:
• Pharmacist
• Drug researcher
• Pharmaceutical scientist
• Clinical research associate
• Quality control analyst
• Medical representative

Students can also pursue higher studies such as **PhD or research careers**.

Hamdard Institute of Legal Studies and Research (HILSR)

Instruction:
What is the Hamdard Institute of Legal Studies and Research (HILSR)?

Response:
Hamdard Institute of Legal Studies and Research (HILSR) is the law school of Jamia Hamdard. It offers legal education focused on constitutional law, corporate law, criminal law, and legal research. The institute prepares students for careers in advocacy, judiciary, corporate law, and legal consultancy.

Instruction:
Which courses are offered in HILSR?

Response:
HILSR mainly offers the following program:
• BA LLB (Integrated Law Program)
The institute may also offer research programs such as PhD in Law.

Instruction:
What is BA LLB?

Response:
BA LLB is an integrated undergraduate law degree combining Bachelor of Arts subjects with legal education. The program covers legal theory, constitutional law, criminal law, corporate law, and litigation practice.

Instruction:
What is the duration of the BA LLB program?

Response:
The BA LLB program duration is **5 years**, divided into **10 semesters**.

Instruction:
What is the fee for BA LLB at HILSR?

Response:
The total tuition fee for the BA LLB program is approximately **₹7 lakh to ₹8 lakh for the complete course**, depending on university updates.

Instruction:
What subjects are taught in BA LLB?

Response:
The program includes subjects such as constitutional law, criminal law, contract law, corporate law, family law, administrative law, environmental law, and intellectual property law.

Instruction:
What is the average placement package for law students?

Response:
The average placement package for law graduates generally ranges between **₹3 LPA and ₹6 LPA** depending on job role and organization.

Instruction:
What is the highest package offered to law students?

Response:
The highest package for law graduates can reach around **₹10 LPA to ₹12 LPA**, particularly in corporate legal roles.

Instruction:
Are internships available for HILSR students?

Response:
Yes, internships are an essential part of legal education. Students complete internships with law firms, courts, corporate legal departments, and legal organizations during the course.

Instruction:
Where do HILSR students usually complete internships?

Response:
Students usually intern with law firms, district courts, High Courts, corporate legal departments, legal research organizations, and NGOs working in legal fields.

Instruction:
Does HILSR have moot court activities?

Response:
Yes, HILSR organizes moot court competitions and mock trials where students practice legal argumentation and courtroom procedures.

Instruction:
What facilities are available for law students?

Response:
Facilities include law libraries, moot court halls, research resources, classrooms with modern teaching tools, and seminar halls for legal workshops.

Instruction:
What career opportunities are available after BA LLB?

Response:
Graduates can pursue careers as advocates, corporate lawyers, legal consultants, judicial services officers, or legal advisors. Students may also pursue higher education such as LLM or PhD in Law.

Instruction:
Is HILSR approved by legal authorities?

Response:
Yes, the law programs are approved by the relevant legal regulatory bodies required for legal education in India.

Instruction:
Does HILSR provide placement support?

Response:
Yes, the university placement cell and the law institute help students connect with law firms, corporate organizations, and legal recruiters.

Instruction:
Are research opportunities available in HILSR?

Response:
Yes, students can participate in legal research, seminars, workshops, and conferences related to law and public policy.

School of Chemical and Life Sciences (SCLS)

Instruction:
What is the School of Chemical and Life Sciences (SCLS) at Jamia Hamdard?

Response:
The School of Chemical and Life Sciences (SCLS) at Jamia Hamdard focuses on education and research in biological sciences, chemistry, biotechnology, and environmental sciences. The school offers undergraduate, postgraduate, and doctoral programs that prepare students for careers in research, biotechnology, pharmaceuticals, healthcare, and environmental sectors.

Instruction:
Which courses are offered in the School of Chemical and Life Sciences?

Response:
The school offers several programs including:
• B.Sc Biotechnology
• B.Sc Chemistry
• B.Sc Environmental Science
• M.Sc Biotechnology
• M.Sc Biochemistry
• M.Sc Chemistry
• M.Sc Toxicology
• PhD programs in chemical and life sciences.

Instruction:
What undergraduate courses are offered in SCLS?

Response:
The undergraduate programs offered in SCLS include B.Sc Biotechnology, B.Sc Chemistry, and B.Sc Environmental Science.

Instruction:
What postgraduate courses are offered in SCLS?

Response:
The postgraduate programs offered in SCLS include M.Sc Biotechnology, M.Sc Biochemistry, M.Sc Chemistry, and M.Sc Toxicology.

Instruction:
Does SCLS offer doctoral programs?

Response:
Yes, SCLS offers PhD programs in areas related to biotechnology, chemistry, life sciences, and environmental sciences for students interested in research careers.

Instruction:
What is the duration of B.Sc programs in SCLS?

Response:
The duration of B.Sc programs is **3 years**, divided into **6 semesters**.

Instruction:
What is the duration of M.Sc programs in SCLS?

Response:
The duration of M.Sc programs is **2 years**, divided into **4 semesters**.

Instruction:
What is the duration of the PhD program in SCLS?

Response:
The PhD program usually takes **3 to 5 years**, depending on research progress and thesis completion.

Instruction:
What is the fee for B.Sc programs in SCLS?

Response:
The total tuition fee for B.Sc programs generally ranges between **₹3 lakh and ₹5 lakh for the entire course**, depending on the specialization and university updates.

Instruction:
What is the fee for M.Sc programs in SCLS?

Response:
The total tuition fee for M.Sc programs usually ranges between **₹2 lakh and ₹4 lakh for the complete course**.

Instruction:
What is the average placement package for SCLS students?

Response:
The average placement package for students from SCLS generally ranges between **₹3 LPA and ₹5 LPA** depending on specialization, skills, and industry demand.

Instruction:
What is the highest package offered to SCLS students?

Response:
The highest package for graduates from life sciences and biotechnology fields can reach approximately **₹8 LPA to ₹12 LPA**, depending on job role and company.

Instruction:
Are internships available for SCLS students?

Response:
Yes, internships are encouraged for students to gain practical experience in laboratories, biotechnology companies, pharmaceutical industries, and research institutes.

Instruction:
Where do SCLS students usually complete internships?

Response:
Students usually complete internships at biotechnology companies, pharmaceutical research laboratories, environmental organizations, government research institutes, and healthcare research centers.

Instruction:
What laboratories are available in SCLS?

Response:
SCLS provides several laboratories including biotechnology labs, microbiology labs, chemistry labs, molecular biology labs, and environmental science laboratories equipped with modern scientific instruments.

Instruction:
What research opportunities are available for SCLS students?

Response:
Students can participate in research projects, laboratory experiments, scientific conferences, and collaborative research with faculty members in fields such as biotechnology, molecular biology, and chemical sciences.

Instruction:
What career opportunities are available after studying in SCLS?

Response:
Graduates can pursue careers as research scientists, biotechnology analysts, laboratory technicians, environmental consultants, pharmaceutical researchers, or pursue higher studies such as PhD or specialized research programs.

Instruction:
Do SCLS students work in the pharmaceutical industry?

Response:
Yes, many graduates work in pharmaceutical companies in areas such as drug research, quality control, clinical research, and laboratory analysis.

Instruction:
Does SCLS provide placement support?

Response:
Yes, the university placement cell assists students with internship opportunities, skill development programs, and recruitment drives conducted by companies and research organizations.

Instruction:
What facilities are available for SCLS students?

Response:
Students have access to laboratories, research facilities, library resources, seminar halls, computer labs, and collaborative research environments that support scientific learning and innovation.

School of Chemical and Life Sciences (SCLS)

Instruction:
What is the School of Chemical and Life Sciences (SCLS) at Jamia Hamdard?

Response:
The School of Chemical and Life Sciences (SCLS) at Jamia Hamdard focuses on education and research in biological sciences, chemistry, biotechnology, and environmental sciences. The school offers undergraduate, postgraduate, and doctoral programs that prepare students for careers in research, biotechnology, pharmaceuticals, healthcare, and environmental sectors.

Instruction:
Which courses are offered in the School of Chemical and Life Sciences?

Response:
The school offers several programs including:
• B.Sc Biotechnology
• B.Sc Chemistry
• B.Sc Environmental Science
• M.Sc Biotechnology
• M.Sc Biochemistry
• M.Sc Chemistry
• M.Sc Toxicology
• PhD programs in chemical and life sciences.

Instruction:
What undergraduate courses are offered in SCLS?

Response:
The undergraduate programs offered in SCLS include B.Sc Biotechnology, B.Sc Chemistry, and B.Sc Environmental Science.

Instruction:
What postgraduate courses are offered in SCLS?

Response:
The postgraduate programs offered in SCLS include M.Sc Biotechnology, M.Sc Biochemistry, M.Sc Chemistry, and M.Sc Toxicology.

Instruction:
Does SCLS offer doctoral programs?

Response:
Yes, SCLS offers PhD programs in areas related to biotechnology, chemistry, life sciences, and environmental sciences for students interested in research careers.

Instruction:
What is the duration of B.Sc programs in SCLS?

Response:
The duration of B.Sc programs is **3 years**, divided into **6 semesters**.

Instruction:
What is the duration of M.Sc programs in SCLS?

Response:
The duration of M.Sc programs is **2 years**, divided into **4 semesters**.

Instruction:
What is the duration of the PhD program in SCLS?

Response:
The PhD program usually takes **3 to 5 years**, depending on research progress and thesis completion.

Instruction:
What is the fee for B.Sc programs in SCLS?

Response:
The total tuition fee for B.Sc programs generally ranges between **₹3 lakh and ₹5 lakh for the entire course**, depending on the specialization and university updates.

Instruction:
What is the fee for M.Sc programs in SCLS?

Response:
The total tuition fee for M.Sc programs usually ranges between **₹2 lakh and ₹4 lakh for the complete course**.

Instruction:
What is the average placement package for SCLS students?

Response:
The average placement package for students from SCLS generally ranges between **₹3 LPA and ₹5 LPA** depending on specialization, skills, and industry demand.

Instruction:
What is the highest package offered to SCLS students?

Response:
The highest package for graduates from life sciences and biotechnology fields can reach approximately **₹8 LPA to ₹12 LPA**, depending on job role and company.

Instruction:
Are internships available for SCLS students?

Response:
Yes, internships are encouraged for students to gain practical experience in laboratories, biotechnology companies, pharmaceutical industries, and research institutes.

Instruction:
Where do SCLS students usually complete internships?

Response:
Students usually complete internships at biotechnology companies, pharmaceutical research laboratories, environmental organizations, government research institutes, and healthcare research centers.

Instruction:
What laboratories are available in SCLS?

Response:
SCLS provides several laboratories including biotechnology labs, microbiology labs, chemistry labs, molecular biology labs, and environmental science laboratories equipped with modern scientific instruments.

Instruction:
What research opportunities are available for SCLS students?

Response:
Students can participate in research projects, laboratory experiments, scientific conferences, and collaborative research with faculty members in fields such as biotechnology, molecular biology, and chemical sciences.

Instruction:
What career opportunities are available after studying in SCLS?

Response:
Graduates can pursue careers as research scientists, biotechnology analysts, laboratory technicians, environmental consultants, pharmaceutical researchers, or pursue higher studies such as PhD or specialized research programs.

Instruction:
Do SCLS students work in the pharmaceutical industry?

Response:
Yes, many graduates work in pharmaceutical companies in areas such as drug research, quality control, clinical research, and laboratory analysis.

Instruction:
Does SCLS provide placement support?

Response:
Yes, the university placement cell assists students with internship opportunities, skill development programs, and recruitment drives conducted by companies and research organizations.

Instruction:
What facilities are available for SCLS students?

Response:
Students have access to laboratories, research facilities, library resources, seminar halls, computer labs, and collaborative research environments that support scientific learning and innovation.

School of Management and Business Studies (SMBS)

Instruction:
What is the School of Management and Business Studies (SMBS) at Jamia Hamdard?

Response:
The School of Management and Business Studies (SMBS) at Jamia Hamdard provides education in management, business administration, and entrepreneurship. The school focuses on developing leadership, analytical, and managerial skills required for corporate, healthcare, and pharmaceutical industries.

Instruction:
Which courses are offered in the School of Management and Business Studies?

Response:
The school offers several programs including:
• BBA (Bachelor of Business Administration)
• MBA (Master of Business Administration)
• MBA Healthcare and Hospital Management
• MBA Pharmaceutical Management
• PhD in Management

Instruction:
What undergraduate courses are offered in SMBS?

Response:
The undergraduate program offered in SMBS is BBA (Bachelor of Business Administration).

Instruction:
What postgraduate courses are offered in SMBS?

Response:
The postgraduate programs offered in SMBS include MBA, MBA Healthcare and Hospital Management, and MBA Pharmaceutical Management.

Instruction:
Does SMBS offer doctoral programs?

Response:
Yes, SMBS offers PhD programs in management for students interested in research and academic careers.

Instruction:
What is the duration of the BBA program?

Response:
The BBA program duration is **3 years**, divided into **6 semesters**.

Instruction:
What is the duration of the MBA program?

Response:
The MBA program duration is **2 years**, divided into **4 semesters**.

Instruction:
What is the duration of the PhD program in management?

Response:
The PhD program usually takes **3 to 5 years** depending on research progress and thesis completion.

Instruction:
What is the fee for the BBA program?

Response:
The total tuition fee for the BBA program generally ranges between **₹3 lakh and ₹4.5 lakh for the entire course**, depending on university updates.

Instruction:
What is the fee for the MBA program?

Response:
The total tuition fee for MBA programs generally ranges between **₹4 lakh and ₹6 lakh for the complete course** depending on specialization.

Instruction:
What is the average placement package for SMBS students?

Response:
The average placement package for management graduates generally ranges between **₹5 LPA and ₹8 LPA**, depending on specialization, skills, and job role.

Instruction:
What is the highest package offered to SMBS students?

Response:
The highest package for management graduates can reach approximately **₹15 LPA to ₹20 LPA** depending on company and placement year.

Instruction:
Are internships available for SMBS students?

Response:
Yes, internships are an important part of management programs. Students typically complete internships with companies, banks, consulting firms, and corporate organizations during their studies.

Instruction:
Where do SMBS students usually complete internships?

Response:
Students usually intern at banks, corporate companies, consulting firms, marketing agencies, pharmaceutical companies, and healthcare management organizations.

Instruction:
Which companies recruit SMBS students?

Response:
Major recruiters include companies such as Deloitte, ICICI Bank, HDFC Bank, Amazon, EY, Accenture, and other corporate organizations.

Instruction:
What subjects are taught in BBA and MBA programs?

Response:
The programs include subjects such as marketing management, financial management, human resource management, business analytics, operations management, organizational behavior, and strategic management.

Instruction:
What career opportunities are available after studying in SMBS?

Response:
Graduates can work as business analysts, marketing managers, financial analysts, HR managers, management consultants, and entrepreneurs in corporate and business sectors.

Instruction:
Does SMBS provide placement support?

Response:
Yes, the university placement cell assists management students with internships, skill development programs, and recruitment drives conducted by companies.

Instruction:
What facilities are available for SMBS students?

Response:
Students have access to modern classrooms, computer labs, business research resources, seminar halls, libraries, and industry interaction programs that support management education.

Instruction:
Can SMBS students pursue higher education after graduation?

Response:
Yes, students can pursue higher education such as PhD in management, specialized MBA programs, or professional certifications in finance, marketing, or analytics.

School of Humanities and Social Sciences (SHSS)

Instruction:
What is the School of Humanities and Social Sciences (SHSS) at Jamia Hamdard?

Response:
The School of Humanities and Social Sciences (SHSS) at Jamia Hamdard provides education in social sciences, humanities, public policy, and cultural studies. The school focuses on developing analytical thinking, social awareness, research skills, and understanding of human society and governance.

Instruction:
Which courses are offered in the School of Humanities and Social Sciences?

Response:
The school offers several programs including:
• BA Political Science
• BA Islamic Studies
• MA Political Science
• MA Islamic Studies
• MA Public Policy
• PhD programs in humanities and social sciences.

Instruction:
What undergraduate courses are offered in SHSS?

Response:
The undergraduate programs offered in SHSS include BA Political Science and BA Islamic Studies.

Instruction:
What postgraduate courses are offered in SHSS?

Response:
The postgraduate programs offered in SHSS include MA Political Science, MA Islamic Studies, and MA Public Policy.

Instruction:
Does SHSS offer doctoral programs?

Response:
Yes, SHSS offers PhD programs in humanities and social sciences for students interested in academic research and higher studies.

Instruction:
What is the duration of BA programs in SHSS?

Response:
The duration of BA programs is **3 years**, divided into **6 semesters**.

Instruction:
What is the duration of MA programs in SHSS?

Response:
The duration of MA programs is **2 years**, divided into **4 semesters**.

Instruction:
What is the duration of the PhD program in SHSS?

Response:
The PhD program usually takes **3 to 5 years**, depending on research progress and thesis completion.

Instruction:
What is the fee for BA programs in SHSS?

Response:
The total tuition fee for BA programs generally ranges between **₹2 lakh and ₹3 lakh for the entire course**, depending on university updates.

Instruction:
What is the fee for MA programs in SHSS?

Response:
The total tuition fee for MA programs generally ranges between **₹1.5 lakh and ₹2.5 lakh for the complete course**.

Instruction:
What is the average placement package for SHSS students?

Response:
The average placement package for graduates from humanities and social sciences programs generally ranges between **₹3 LPA and ₹5 LPA**, depending on job role and organization.

Instruction:
What is the highest package offered to SHSS students?

Response:
The highest package for graduates from humanities and social sciences programs can reach approximately **₹7 LPA to ₹10 LPA** depending on experience, role, and organization.

Instruction:
Are internships available for SHSS students?

Response:
Yes, internships are encouraged for students to gain practical experience in government organizations, research institutes, NGOs, policy organizations, and media institutions.

Instruction:
Where do SHSS students usually complete internships?

Response:
Students usually complete internships at NGOs, public policy organizations, research institutes, government departments, and media or social organizations.

Instruction:
What subjects are taught in SHSS programs?

Response:
Programs include subjects related to political science, governance, international relations, Islamic studies, social theory, public administration, public policy, and social research methods.

Instruction:
What career opportunities are available after studying in SHSS?

Response:
Graduates can pursue careers as researchers, policy analysts, journalists, educators, civil services aspirants, social workers, and public administration professionals.

Instruction:
Can SHSS students prepare for civil services?

Response:
Yes, many students pursue careers in civil services such as IAS, IPS, and other government positions after studying political science and related subjects.

Instruction:
Does SHSS provide placement support?

Response:
Yes, the university placement cell assists students with internships, training programs, and career opportunities in public and private sector organizations.

Instruction:
What facilities are available for SHSS students?

Response:
Students have access to libraries, research resources, seminar halls, classrooms with modern teaching tools, and academic events that support humanities and social sciences education.

School of Nursing and Allied Health Sciences

Instruction:
What is the School of Nursing and Allied Health Sciences at Jamia Hamdard?

Response:
The School of Nursing and Allied Health Sciences at Jamia Hamdard provides education and training in nursing and healthcare support professions. The school focuses on clinical skills, patient care, medical technology, and healthcare management to prepare students for careers in hospitals, healthcare institutions, and diagnostic laboratories.

Instruction:
Which courses are offered in the School of Nursing and Allied Health Sciences?

Response:
The school offers several healthcare programs including:
• B.Sc Nursing
• M.Sc Nursing
• BPT (Bachelor of Physiotherapy)
• BOT (Bachelor of Occupational Therapy)
• BMLT (Bachelor of Medical Laboratory Technology)
• Medical Imaging Technology
• Dialysis Technology
• Emergency and Trauma Care Management.

Instruction:
What undergraduate courses are offered in the School of Nursing and Allied Health Sciences?

Response:
The undergraduate programs include B.Sc Nursing, BPT, BOT, BMLT, Medical Imaging Technology, Dialysis Technology, and Emergency and Trauma Care Management.

Instruction:
What postgraduate courses are offered in the School of Nursing and Allied Health Sciences?

Response:
The postgraduate program offered is M.Sc Nursing with different specializations in nursing and healthcare.

Instruction:
What is the duration of the B.Sc Nursing program?

Response:
The duration of the B.Sc Nursing program is **4 years**, divided into **8 semesters** along with clinical training.

Instruction:
What is the duration of the M.Sc Nursing program?

Response:
The duration of the M.Sc Nursing program is **2 years**, divided into **4 semesters**.

Instruction:
What is the duration of BPT and BOT programs?

Response:
The duration of BPT and BOT programs is generally **4 years**, including clinical training and internships.

Instruction:
What is the duration of BMLT and other allied health programs?

Response:
Most allied health undergraduate programs such as BMLT and Medical Imaging Technology have a duration of **3 to 4 years** depending on the program structure.

Instruction:
What is the fee for nursing and allied health programs?

Response:
The total tuition fee for nursing and allied health programs generally ranges between **₹4 lakh and ₹7 lakh for the entire course**, depending on the program and university updates.

Instruction:
What is the average placement package for nursing and allied health students?

Response:
The average placement package generally ranges between **₹3 LPA and ₹5 LPA**, depending on the healthcare organization and job role.

Instruction:
What is the highest package offered to students in nursing and allied health programs?

Response:
The highest package for graduates can reach approximately **₹6 LPA to ₹8 LPA**, depending on experience, specialization, and healthcare institution.

Instruction:
Are internships available for nursing and allied health students?

Response:
Yes, internships and clinical training are mandatory parts of healthcare programs. Students receive practical training in hospitals and healthcare centers.

Instruction:
Where do nursing and allied health students complete internships?

Response:
Students typically complete internships in hospitals, healthcare centers, diagnostic laboratories, rehabilitation centers, and medical research facilities.

Instruction:
What clinical training facilities are available for students?

Response:
Students receive clinical training in hospital environments where they learn patient care, medical procedures, laboratory techniques, and healthcare management practices.

Instruction:
What career opportunities are available after studying in the School of Nursing and Allied Health Sciences?

Response:
Graduates can work as nurses, physiotherapists, occupational therapists, laboratory technologists, imaging technologists, dialysis technicians, or healthcare professionals in hospitals and healthcare institutions.

Instruction:
Do students work in hospitals after completing these programs?

Response:
Yes, many graduates work in hospitals, healthcare organizations, rehabilitation centers, diagnostic laboratories, and medical research institutions.

Instruction:
Does the School of Nursing and Allied Health Sciences provide placement support?

Response:
Yes, the university placement cell assists students with internships, training programs, and recruitment opportunities in hospitals and healthcare organizations.

Instruction:
What facilities are available for nursing and allied health students?

Response:
Students have access to clinical laboratories, nursing skill labs, medical equipment training facilities, libraries, and modern classrooms that support healthcare education.

School of Unani Medical Education and Research (SUMER)

Instruction:
What is the School of Unani Medical Education and Research (SUMER) at Jamia Hamdard?

Response:
The School of Unani Medical Education and Research (SUMER) at Jamia Hamdard provides education and training in the Unani system of medicine. The school focuses on traditional medicine, herbal treatments, clinical practice, and research in Unani medical sciences.

Instruction:
Which courses are offered in the School of Unani Medical Education and Research?

Response:
The school offers several programs including:

• BUMS (Bachelor of Unani Medicine and Surgery)
• MD Unani in different specializations
• PhD in Unani Medicine and related research fields.

Instruction:
What undergraduate courses are offered in SUMER?

Response:
The undergraduate program offered in SUMER is BUMS (Bachelor of Unani Medicine and Surgery).

Instruction:
What postgraduate courses are offered in SUMER?

Response:
The postgraduate programs offered include MD Unani with various specializations related to Unani medicine.

Instruction:
Does SUMER offer doctoral programs?

Response:
Yes, SUMER offers PhD programs in Unani medicine and related medical research fields.

Instruction:
What is BUMS?

Response:
BUMS (Bachelor of Unani Medicine and Surgery) is a professional medical degree focused on the Unani system of medicine, which includes herbal medicine, traditional treatment methods, and clinical medical practice.

Instruction:
What is the duration of the BUMS program?

Response:
The duration of the BUMS program is **5.5 years**, which includes **4.5 years of academic study and 1 year of internship**.

Instruction:
What is the duration of the MD Unani program?

Response:
The duration of the MD Unani program is **3 years**.

Instruction:
What is the duration of the PhD program in SUMER?

Response:
The PhD program generally takes **3 to 5 years**, depending on research progress and thesis completion.

Instruction:
What is the fee for the BUMS program?

Response:
The total tuition fee for the BUMS program generally ranges between **₹3 lakh and ₹5 lakh for the entire course**, depending on university updates.

Instruction:
What is the fee for MD Unani programs?

Response:
The total tuition fee for MD Unani programs generally ranges between **₹3 lakh and ₹4 lakh for the complete course**.

Instruction:
What is the average placement package for SUMER students?

Response:
The average salary for graduates in Unani medicine generally ranges between **₹3 LPA and ₹6 LPA**, depending on clinical practice and job role.

Instruction:
What is the highest salary for graduates from SUMER?

Response:
Experienced practitioners and specialists in Unani medicine can earn approximately **₹8 LPA to ₹10 LPA or more**, especially in hospitals or private practice.

Instruction:
Is internship required in the BUMS program?

Response:
Yes, a **one-year compulsory internship** is required as part of the BUMS program to gain clinical experience.

Instruction:
Where do SUMER students complete internships?

Response:
Students usually complete internships in Unani hospitals, healthcare centers, and clinical training institutions associated with the university.

Instruction:
What career opportunities are available after BUMS?

Response:
Graduates can work as Unani doctors, medical practitioners, researchers in traditional medicine, healthcare consultants, or pursue higher education such as MD or PhD.

Instruction:
Can BUMS graduates open their own clinic?

Response:
Yes, after completing the degree and fulfilling medical registration requirements, graduates can open their own Unani medical clinic or practice traditional medicine.

Instruction:
What facilities are available for SUMER students?

Response:
Students have access to Unani hospitals, herbal medicine laboratories, research centers, libraries, and clinical training facilities that support education in traditional medicine.

Instruction:
Does SUMER provide placement support?

Response:
Yes, the university provides career guidance and placement assistance for students interested in hospital jobs, research positions, and healthcare organizations.

Hamdard Institute of Medical Sciences and Research (HIMSR)

Instruction:
What is the Hamdard Institute of Medical Sciences and Research (HIMSR) at Jamia Hamdard?

Response:
Hamdard Institute of Medical Sciences and Research (HIMSR) is the medical college of Jamia Hamdard. It provides education and training in modern medical sciences, clinical practice, and healthcare research. The institute is associated with a teaching hospital where students gain practical medical training.

Instruction:
Which courses are offered in HIMSR?

Response:
HIMSR offers several medical programs including:
• MBBS (Bachelor of Medicine and Bachelor of Surgery)
• MD programs in various medical specializations
• MS programs in surgical specializations
• PhD programs in medical sciences.

Instruction:
What undergraduate course is offered in HIMSR?

Response:
The undergraduate program offered in HIMSR is MBBS (Bachelor of Medicine and Bachelor of Surgery).

Instruction:
What postgraduate courses are offered in HIMSR?

Response:
The postgraduate programs offered include MD and MS programs in different medical and surgical specializations.

Instruction:
Does HIMSR offer doctoral programs?

Response:
Yes, HIMSR offers PhD programs in medical sciences for students interested in medical research and academic careers.

Instruction:
What is MBBS?

Response:
MBBS is a professional medical degree that trains students in medical sciences, clinical practice, diagnosis, treatment of diseases, and patient care.

Instruction:
What is the duration of the MBBS program?

Response:
The duration of the MBBS program is **5.5 years**, which includes **4.5 years of academic study and 1 year of compulsory internship**.

Instruction:
What is the duration of MD and MS programs?

Response:
The duration of MD and MS postgraduate medical programs is **3 years**.

Instruction:
What is the duration of the PhD program in HIMSR?

Response:
The PhD program usually takes **3 to 5 years**, depending on research progress and thesis completion.

Instruction:
What are the eligibility requirements for MBBS admission?

Response:
Candidates must have completed **Class 12 with Physics, Chemistry, Biology, and English** as core subjects and must qualify the **NEET (National Eligibility cum Entrance Test)** examination.

Instruction:
What entrance exam is required for MBBS admission?

Response:
Admission to the MBBS program requires qualification in the **NEET examination**, which is conducted at the national level for medical admissions in India.

Instruction:
What is the minimum age requirement for MBBS admission?

Response:
Candidates must be **at least 17 years old** on or before 31 December of the admission year.

Instruction:
What is the fee for the MBBS program?

Response:
The total tuition fee for the MBBS program generally ranges between **₹60 lakh and ₹80 lakh for the entire course**, depending on university updates and category.

Instruction:
What is the fee for MD and MS programs?

Response:
The total tuition fee for MD and MS programs generally ranges between **₹30 lakh and ₹60 lakh**, depending on specialization and university policies.

Instruction:
What is the average salary for MBBS graduates?

Response:
The average salary for MBBS graduates generally ranges between **₹6 LPA and ₹10 LPA**, depending on job role and healthcare institution.

Instruction:
What is the highest salary for doctors graduating from HIMSR?

Response:
Experienced doctors and specialists can earn **₹15 LPA to ₹25 LPA or more**, especially after postgraduate specialization.

Instruction:
Is internship required in the MBBS program?

Response:
Yes, a **one-year compulsory rotating internship** is required after completing the academic part of the MBBS program.

Instruction:
Where do HIMSR students complete their internship?

Response:
Students usually complete their internship at the **teaching hospital associated with HIMSR**, where they gain clinical experience in different medical departments.

Instruction:
What clinical training facilities are available for HIMSR students?

Response:
Students receive training in hospital wards, operation theatres, diagnostic laboratories, outpatient departments, and emergency care units.

Instruction:
What career opportunities are available after MBBS?

Response:
Graduates can work as medical doctors, pursue postgraduate medical education such as MD or MS, work in hospitals and healthcare institutions, or engage in medical research.

Instruction:
Can MBBS graduates open their own clinic?

Response:
Yes, after completing MBBS and obtaining medical registration, graduates can practice medicine and open their own clinic.

Instruction:
Does HIMSR provide placement or career support?

Response:
Yes, the institute provides career guidance and training opportunities for students seeking positions in hospitals, healthcare institutions, and medical research organizations.

Instruction:
What facilities are available for HIMSR students?

Response:
Students have access to teaching hospitals, medical laboratories, simulation labs, libraries, lecture halls, and clinical training facilities that support medical education and healthcare training.

JAMIA HAMDARD — GENERAL ACADEMIC STRUCTURE DATASET

Instruction:
Which credit system is followed in Jamia Hamdard?

Response:
Jamia Hamdard follows the **Choice Based Credit System (CBCS)** where students earn academic credits through **core subjects, electives, and practical courses** as part of their program requirements.

Instruction:
Can students choose minor subjects?

Response:
Yes. Many academic programs allow students to select **elective or minor subjects** depending on the curriculum structure and department regulations.

Instruction:
Where can I download syllabus of Jamia Hamdard courses?

Response:
The **course syllabus** is available on the official website of Jamia Hamdard under the **Academics section**, where each school and department provides detailed curriculum information.

Instruction:
Is academic calendar available?

Response:
Yes. The **academic calendar** is released every year on the university website and includes important dates such as **semester start dates, examination schedules, holidays, and academic deadlines**.

JAMIA HAMDARD — FEES & SCHOLARSHIPS DATASET

Fees Structure

Instruction:
What is the total fee per year in Jamia Hamdard?

Response:
The **annual fee** depends on the course and school. Professional programs such as **Engineering, Pharmacy, and Management** usually have higher fees, while **Humanities and Science programs** generally have lower fees. Students should check the official fee structure for the exact amount.

Instruction:
What is the semester fee system in Jamia Hamdard?

Response:
Jamia Hamdard generally collects **fees semester-wise**. Students must pay the semester fee at the **beginning of each semester** to maintain enrollment.

Instruction:
Is exam fee charged separately?

Response:
Yes. The **examination fee** is usually charged separately from the tuition fee before semester examinations.

Instruction:
Is library fee included?

Response:
Yes. **Library charges** are usually included in the academic fee or collected as part of institutional charges.

Instruction:
Is lab fee charged for practical courses?

Response:
Yes. **Laboratory fees** apply to programs such as **Engineering, Pharmacy, and Science courses** that include practical sessions.

Instruction:
Is there a security deposit?

Response:
Yes. A **refundable security deposit** may be required at the time of admission depending on the course and facilities used.

Instruction:
Is hostel fee separate from academic fee?

Response:
Yes. **Hostel fees are separate** from tuition fees and must be paid by students who choose hostel accommodation.

Instruction:
Is mess fee included in hostel fee?

Response:
No. **Mess charges are generally separate** from hostel accommodation charges and are paid periodically.

Instruction:
Can fee be paid in installments?

Response:
Fee installment payment may be allowed in **special cases** with approval from the university administration.

Instruction:
Is online fee payment accepted?

Response:
Yes. Jamia Hamdard accepts **online payments** through the university admission portal and payment gateway.

Instruction:
Can I pay fee through bank challan?

Response:
Bank challan payment may be available depending on university notifications and payment options.

Instruction:
What is the fee refund policy?

Response:
Fee refunds are processed according to **university and UGC guidelines** after deducting applicable charges based on the date of withdrawal.

Scholarships & Financial Support

Instruction:
Are scholarships available in Jamia Hamdard?

Response:
Yes. Jamia Hamdard provides **internal scholarships** and also supports **government scholarships** for eligible students.

Instruction:
What is the merit scholarship criteria?

Response:
Merit scholarships are awarded to students with high academic performance based on marks or CGPA criteria determined by the university.

Instruction:
Can minority students apply for scholarship?

Response:
Yes. Eligible minority students can apply for **government minority scholarships** through the **National Scholarship Portal**.

Instruction:
Are external scholarships accepted?

Response:
Yes. Students can avail **central and state government scholarships** and submit documents to the university for verification.

Instruction:
Does university provide loan assistance letter?

Response:
Yes. The university provides **bonafide certificates and fee structure documents** required for applying for education loans.

Instruction:
Is there a late fee fine?

Response:
Yes. A **late fine** is charged if the fee is paid after the deadline specified by the university.

Instruction:
Is fee concession available for toppers?

Response:
Yes. **Fee concessions or scholarships** may be awarded to top performing students depending on university policy.

Instruction:
Is sibling concession available?

Response:
Sibling concessions may be available in certain cases subject to **approval from the university administration**.

JAMIA HAMDARD — ACADEMICS & EXAMS DATASET

Attendance & Evaluation

Instruction:
What is the attendance requirement in Jamia Hamdard?

Response:
Students must maintain at least **75 percent attendance** in each subject to be eligible for examinations according to university rules.

Instruction:
What are the minimum passing marks?

Response:
Students must obtain **minimum passing marks separately in internal and external examinations** as defined in the course regulations.

Instruction:
What are backlog rules in Jamia Hamdard?

Response:
Students who fail a subject must **reappear in the next available examination** as a backlog paper according to university guidelines.

Instruction:
Is supplementary exam conducted?

Response:
Yes. **Supplementary or reappear examinations** are conducted for students who fail or miss the regular exam.

Instruction:
What is the rechecking process?

Response:
Students can apply for **answer sheet rechecking** through the examination section within the notified period after result declaration.

Instruction:
What is the revaluation fee?

Response:
Revaluation requires payment of a **prescribed fee per subject** as notified by the examination branch.

Instruction:
Is grace marks policy available?

Response:
Grace marks may be awarded according to **university examination rules** in specific situations.

Instruction:
What is the internal marks weightage?

Response:
Internal assessment usually includes **assignments, quizzes, and attendance**, contributing a fixed percentage to the final result depending on the course.

Instruction:
What is the practical marks weightage?

Response:
Practical and laboratory courses carry **separate marks**, which are combined with theory marks in the final evaluation.

Instruction:
Are assignments compulsory?

Response:
Yes. **Assignments and internal assessments are compulsory** and contribute to internal marks.

Instruction:
Is proxy attendance allowed?

Response:
No. **Proxy attendance is strictly prohibited** and disciplinary action may be taken.

Instruction:
What is the leave application process?

Response:
Students must submit a **written or online leave application** to the department or faculty advisor for approval.

Instruction:
Is medical leave accepted?

Response:
Yes. **Medical leave is accepted with a valid medical certificate**.

Examination Process

Instruction:
When is the exam timetable released?

Response:
The **examination timetable** is published on the university website before the start of semester examinations.

Instruction:
How to download hall ticket?

Response:
Students can download the **admit card or hall ticket** from the student portal or collect it from their department.

Instruction:
What are rules for detained students?

Response:
Students with **shortage of attendance** may be detained and not allowed to appear in exams until attendance requirements are fulfilled.

Instruction:
What is semester break duration?

Response:
Semester breaks usually range from **two to four weeks**, depending on the academic calendar.

Instruction:
Is summer training compulsory?

Response:
Yes. **Summer training is compulsory** for professional programs such as Engineering, Pharmacy, and Management.

Instruction:
What are academic probation rules?

Response:
Students with consistently **poor academic performance** may be placed on academic probation and required to improve performance in the following semester.

JAMIA HAMDARD — PLACEMENTS DATASET

Overall Placement Information

Instruction:
What is the placement percentage in Jamia Hamdard?

Response:
The **placement percentage varies by course and school**. Professional programs like Engineering, Management, and Pharmacy generally have higher placement rates.

Instruction:
What is the average package offered in Jamia Hamdard?

Response:
The **average salary package depends on the course**. Engineering and Management programs typically receive higher packages compared to other programs.

Instruction:
What is the highest package in Jamia Hamdard?

Response:
The **highest package varies each year** depending on recruiting companies and student performance.

Instruction:
What is the median salary offered?

Response:
The **median salary** falls between the lowest and highest packages and varies according to program and batch performance.

Instruction:
Who are the top recruiters in Jamia Hamdard?

Response:
Companies from **IT, pharmaceutical, healthcare, finance, and consulting sectors** recruit students depending on the department.

Placement Support & Training

Instruction:
Does Jamia Hamdard have a placement cell?

Response:
Yes. Jamia Hamdard has a **Training and Placement Cell** that coordinates recruitment drives, internships, and career guidance activities.

Instruction:
Are internship opportunities provided?

Response:
Yes. Students are encouraged and assisted to obtain **internships through placement cell and departmental networks**.

Instruction:
Are paid internships available?

Response:
Yes. Some companies provide **paid internships** depending on the role and company policy.

Instruction:
Are placement training classes conducted?

Response:
Yes. The university conducts **placement preparation sessions including aptitude, communication, and technical training**.

Instruction:
Are aptitude classes provided?

Response:
Yes. **Aptitude training sessions** are organized to help students prepare for recruitment tests.

Instruction:
Are mock interviews conducted?

Response:
Yes. **Mock interviews and group discussions** are conducted to prepare students for actual placement interviews.

Instruction:
Is resume building help provided?

Response:
Yes. Students receive **guidance on resume preparation and profile improvement** from placement coordinators.

Instruction:
Is startup incubation support available?

Response:
Yes. The university encourages **innovation and startup ideas through incubation and mentoring programs**.

Instruction:
Is there an entrepreneurship cell?

Response:
Yes. Jamia Hamdard supports **entrepreneurship initiatives and startup activities** for students.

Instruction:
Does university support off campus placements?

Response:
Yes. Students are guided and informed about **off-campus job opportunities and recruitment drives**.
